Hitachi Healthcare Announces Scenaria View CT* at RSNA 18

Next Generation Premium Performance 64/128-slice CT

Twinsburg, OH November 25, 2018—

Hitachi Healthcare is presenting the new Scenaria View* premium performance 64/128 slice CT at the 2018 Radiological Society of North America Annual General Meeting, featuring Hitachi's next generation dose reduction capabilities, the benefits of industry leading patient accommodation attributes and powerful premium-tier high workflow features. With a larger 80cm aperture, a lateral shift table with +/- 10 cm shift range and an 84kW generator the View is ideally suited to the advanced workload and applications needs of CT providers. Hitachi invites RSNA attendees to step up and admire the View.

Scenaria View is an all new design that raises the bar for **Versatility** and **Affordability** in the CT industry's largest market of 64/128-slice CT's. The View enhances patient comfort with an open design that accommodates the largest of patients, while the dose reduction features and broad range of choices for clinical applications meet the individual provider's needs.

"64/128-slice CT continues to be the industry workhorse for the largest portion of CT exams performed. The Scenaria View combines all of Hitachi's experience and expertise in a remarkable new product providing an unmatched combination of Speed, Comfort and Quality", said Mark Silverman, Director of CT Marketing.

* Not available for sale in the U.S.

ABOUT HITACHI HEALTHCARE AMERICAS

Delivering best in class medical imaging technologies for healthcare providers, Hitachi's MRI, CT and Ultrasound and Agfa HealthCare's DR provide speed, comfort and quality for both physicians and patients, playing an important role in the diagnosis and treatment of disease while driving social innovation into healthcare.
